## REPORT OF SUPERINTENDENT OF SCHOOLS

---

To the citizens of Monhegan, Greetings:

In beginning my sixth annual report, I think it wise to include a few matters of record concerning the school, which are thus preserved concretely for future reference. The school census of young people between the ages of 5 and 21 showed 20 in the community. This fall the school enrollment is 16. Two pupils are attending High School away from home.

In June Mrs. L. Rae Pullen completed three years of service with us. Her place was taken this fall by Miss Clara Ross of Yarmouth who has had several terms of training in the summer Normal School courses and has taught four years successfully before coming to us. Her salary is \$25 per week.

I find no outstanding things to call to your attention in relation to this year's work. On my visits to the school I have found good discipline and good lessons. Pupils attend regularly unless sickness or a trip to the mainland prevent. The work in this school compares favorably with that of my other rural schools.

We added two much-needed maps to the school equipment during the past year. I am voicing my own appreciation and that of the school committee for the excellent books presented to the school by Mr. and Mrs. Palmer. A fine set of Compton's Pictured Encyclopedia was included, a reference book that I had long desired for the school.

Since this year concludes my present contract with your school committee, it may not be amiss to review

the changes that have come to the school since I first knew it. The suggestions which I have made from time to time have first been considered by your school committee. With their approval, the various projects have been presented at Town Meeting, and have been made possible by your own interest in the education of the Island children.

The greatest single improvement was made when you increased your school year from 30 weeks, the minimum allowed by the state, up to 36, the standard for the state. Your improvements to the building come next. When I first knew it, it was probably the poorest schoolhouse in my territory; today it is the best with toilets meeting state requirements, better blackboards, correct heating, lighting and ventilation and well-painted within and without. The stage is a great asset for community purposes. Interest among the children and in the community have added to the equipment a victrola, a new teacher's desk and a fine piano.

The textbooks are up-to-date. A simple course of study keeps our school along in studies with the other schools of the state. Health work has assumed its rightful place with instruction in hygiene, formation of health habits and corrective physical exercise. We are doing a little work in music and drawing.

It has been a pleasure to work with your children and for you. I have always looked forward with pleasure to my trips to Monhegan. I have appreciated the interest shown upon all sides in making the Monhegan School a steadily improving school.

Respectfully submitted,

H. B. CLIFFORD, Supt.

**WARRANT**  
**For Annual Plantation Meeting**
